(Section 7.28 of the WHW).
4. There are no further preparatory education requirements for havo, vwo or mbo diplomas..

The examples of the programs give an impression of the required level of difficulty, but the candidate is at liberty to choose a different repertoire of the same standard.

It goes without saying that the requirements attached to the entrance examination of the preparatory class are less demanding, both with regard to the main subject and in the field of knowledge and hearing. The main focus lies on talent and growth potential in connection with the candidate's age.

The decision to admit the student on the basis of the examination is valid for a maximum period of two years if the student starts the study at once and deregisters in the course of the first year due to unusual circumstances. The student has to discuss the deregistration and the unusual circumstances with the career counsellor and the Student Counsellor and report to the Examination Board

Students will be notified of the results of the entrance examination within two weeks. If the prospective student applies for enrolment on the basis of an experience certificate (issued by an acknowledged Recognition of Prior Learning (RPL) centre), this certificate will be used to determine the student's suitability to take part in the Bachelor's programme as well as their command of the Dutch language.

7. The Executive Board has declared that 'old' HAVO and VWO diplomas with subject combinations chosen by the pupil are at least equivalent to the 'new' diplomas with subject cluster requirements. Consequently, prospective students holding these types of diploma may be admitted. Students must, however, meet any requirements regarding previous qualifications (paragraph 4) and any further additional requirements (paragraph 5). (Section 7.28 of the WHW.)
8. Where a student applies for admission to a study programme based on a diploma other than one of the diplomas referred to above, the institute director will decide whether that diploma is equivalent and if it grants access to the study programme. Students must, however, meet any requirements regarding previous qualifications (paragraph 4) and any further additional requirements (paragraph 5). (Section 7.28 of the WHW.)
9. Students who are admitted by virtue of a diploma as referred to in paragraphs 2, 7 or 8 of this article will be subject to an additional assessment to determine whether they meet the knowledge and skills requirements as referred to in paragraph 4 and 5 of this article. (Section 7.28 of the WHW.) Students must meet the requirements of this assessment prior to enrolment.

2. According to the Code of Conduct regarding International Students, international students seeking admittance to an English-taught study programme must be able to prove that their command of the English language is at least equal to the following scores:

IELTS	6.0
TOEFL Paper	550
TOEFL Computer	213

2. Students who re-enrol after an interruption in a study programme in which they were previously enrolled will be required to take an intake interview to determine which part of the study programme still has to be completed. No intake interview is needed if agreements regarding re-enrolment in the study programme were already made with the Executive Board at the time that the student interrupted his study. If a student enters a study programme during the foundation year, agreements will be made on the period of time the student will be granted before he receives advice regarding the continuation of studies.
3. A study programme will be drawn up based on the assessment of the competencies previously acquired and will be submitted to the Examination Board for approval.

Article 6 Exemptions

1. The institute director can exempt a student from the foundation year examination if the student holds a diploma, Dutch or foreign, which is at least equivalent. (Section 7.30 of the WHW.)
2. Students who believe they are eligible for an exemption must submit an application to that end to the Examination Board. The Examination Board may grant an exemption from one or more interim examinations on the grounds of a review of an assessment or the holding of a diploma, certificate, accreditation of prior learning or similar document, such as proof of results achieved in a study programme taken at a research university or university of applied sciences and / or proof of administrative activities, with which the student can show that he has already met the requirements of the test in question. Exemptions are recorded in the study progress system. The period of validity of the exemption is stated in the exemption decision.
3. The Examination Board can grant an exemption from a minor based on the certificate of an accredited Associate degree, Bachelor's or Master's programme or on a document proving that the student completed a minor in an accredited Bachelor's or Master's programme, so long as this minor does not overlap substantially with the student's current Bachelor's programme. Exemptions based on study results from an accredited Associate degree, Bachelor's or Master's programme can only be granted if the student has documented proof of obtaining at least 30 credits in this study programme (for a Bachelor's programme, this requirement refers to the second and third year, or second year if it concerns an Associate Degree programme) and if these results do not overlap substantially with the student's current Bachelor's programme.
A student who has taken part in the Fontys Empower programme and has successfully completed all components of that programme may, on that basis, be granted an exemption for a minor provided the student submits a request to that effect and this possibility has been set out in Article 16(5).

Article 7 Short-track/tailored study programmes

1. Students who believe they are able to proceed with and/or complete their study programmes at an accelerated pace may submit an application requesting such to the Examination Board. The student coach's advice must be enclosed with the application. The organisation of the study programme must be able to accommodate the short-track option.

2. A request as meant in paragraph 1 is prepared in a talk between the student and intake assessor appointed by the course. On the basis of proof supplied by the student, it is determined for which units of study the student can apply for exemption, and which units of study may have to be tested in a different way than prescribed in the TER. This overview is added to the request to the Examination Board, which must give its approval.

Extra time to sit tests will only be granted to students who can prove that they use facilities to improve their command of the Dutch language.

The adjusted facilities may relate to the study programme (including internships), the timetables, and type of study programme, the tests and educational tools.
3. A student who seeks to have adjusted facilities must submit a written and substantiated application in good time to the Examination Board. If the Examination Board deems it necessary before taking a decision, it may confidentially inspect the medical certificate that may be available with the student counsellor, unless the student objects.
The Examination Board must decide within four work weeks after receipt of the application, unless it requires further inquiry, in which case the student will be informed as to when more clarity can be given with respect to his application.
4. In the case of a protracted or chronic disability, such an application will only have to be made once for the entire study programme; in all other cases once per testing period or academic year. In its decision to grant the facilities, the Examination Board may also rule that these will apply for the entire duration of the student's study or that the student is to consult with his student coach annually to discuss whether the facilities are still adequate.

The student must request the listing at least 3 weeks prior to the graduation ceremony via the study programme administration.

Section 5 Study programme content

Article 13 Study programme profile – main subjects/differentiations – occupational requirements

1. The study programme is based on a study programme profile. The exit qualifications of the study programme are described in the study programme profile. The study programme profile can be found in appendix or on the portal.
2. The study programme includes the main subjects as mentioned in appendix.
3. The study programme is based on the following principle: non-denominational private education.
4. The study programme does not impose specific occupational requirements.

Article 14 Study programme layout

1. Each Bachelor's programme has a foundation year phase with a study load of 60 credits, which is concluded with the foundation year examination. The function of the foundation year is to orientate the student, allowing him or her to make suitable choices.
2. A Bachelor's programme has a study load of 240 credits with a nominal study load of 60 credits per academic year and consists of a major and a free part. The major has a study load of 210 credits. The free part has a study load of 30 credits.

Article 15 Overview of units of study and credits

1. Every study programme consists of a coherent set of units of study, which are components of a study programme concluded with an interim examination. Units of study cannot exceed 30 credits.
2. Only whole credits are awarded for units of study. Below you will find an overview of the distribution of credits.
See appendix

Article 16 Free part of the Bachelor

1. In the main subject (second and third year) students choose their own study and learning activities for a total of 30 EC's that exist in the free part of the Bachelor, provided there is no overlap with the major programme. Students are allowed to choose from Free Choice, Fontys minor, a minor abroad or an external minor in their free part or they can make a choice from the modules on offer within FHK.
2. Students who want to take a minor abroad or an external minor, as a component of the free part of the bachelor programme, must seek the Examination Board's permission regarding their personal choices with respect to the minor prior to its start.
3. In order to start the free part, the student must have passed the propaedeutic phase, unless exception is granted by het Examination Board.
4. High-achieving students can take in their free part a program of over 30 credits. A minor that has been passed will be mentioned on the diploma supplement.
5. The Fontys Empower reorientation programme is open to students who have hit a roadblock in their studies. The programme has a study load of 30 ECTS credits. The regulations for this reorientation programme can be found on the Pulsed portal: <https://fontys.nl/fontyshelpt/Andere-studie/Empower-TEC-kickstartprogramma.htm>
A student who has taken part in the Fontys Empower programme and has successfully completed all components of that programme may, on that basis, be granted an exemption for the free part of the bachelor, provided the student requests an exemption from the Examination Board of the programme in which they are enrolled.
6. Not applicable.

Article 17 Education components - learning environment

1. Below is an overview of the education components that are part of the study programme. See appendix.
2. The education components of the minors are described in the minor regulations. The regulations governing the minors offered across Fontys can be found at www.fontys.nl/minors. The regulations governing minors specific to study programmes are included as an appendix to this TER.
3. Any entry requirements a student must meet before participating in an education component are stated in the overview as referred to in paragraph 1.
4. Participation in education components in the post-foundation year phase is allowed after passing the foundation year examination. All students with a positive study advice may participate in education components if they have met the requirements as referred to in paragraph 3. All students whose study advice has been deferred may participate in education components if they have met the requirements as referred to in paragraph 3 unless the Board of Examiners decides otherwise .
5. Enrolment in the education components is not required with the exception of electives. Students need to register via the Electives-tool. Students will be informed if the application for an elective is approved.
6. The timetable is announced by way of communication on the portal of the academy no later than 3 weeks prior to the start of classes.
7. Students who have registered for an education component must ensure that they meet the entry requirements of that component. The overview in Article 16, paragraph 1, indicates the education components to which requirements apply for participation as well as the nature of these requirements. If the requirements concern compulsory attendance, students who are eligible for the Elite athletes scheme or the Student entrepreneur scheme can apply to meet this requirement in a parallel group or for exemption from this obligation (see also Article 11 and 11a).

Article 18 - Evaluation of teaching

The teaching provided during the study programme is evaluated in the following way.

FHK uses an evaluation calendar and provides for quality teacher-course evaluations, the first-year evaluation, the SBA (Start Competencies Research), the final evaluation and SLB-evaluation. Fontys Hogescholen provides for the ESS (Employee Satisfaction Research), NSE (National Student Survey), STO (Student Satisfaction Survey) and the minor evaluation.

Section 6 Tests, evidence, assessment and study progress

Article 19 Types of tests - evidence

1. The study programme has tests with credits only. The student immediately earns credits on passing the test. A competency examination is also regarded as a test with credits. When an interim examination of a unit of study consists of several component tests, the credits will be awarded as soon as the interim examination of the unit of study is passed. A competency examination is a special form of a test with credits.
The following tests are part of the study programme:
st = skills test (physical/auditory)
kw = knowledge test: written exam
ko = knowledge test: oral exam
rp = written assignment/report
wpa = written process assignment/reflection
opa = oral process assessment
pfa = portfolio assessment/logbook
2. Tests are conducted in writing or orally or in a fashion that combines both writing and oral delivery (e.g. product and presentation/interview).
3. An oral examination, including an assessment, is conducted by at least two examiners. A report must always be drawn up of an oral test on a specially designed evaluation form an assessment of the quality of the evaluation afterwards. A test may be conducted by a single examiner only following the approval of the Examination Board and provided the student does not object. An oral test is held in public. Interested parties who wish to attend an oral test must submit a request to that effect to the examiner(s) at least two weeks before the test is held. The examiner must inform the student who is taking the test. If the student objects, the request to attend the oral test will in any event be rejected. Any rejection by the examiner will be substantiated. When the Examination Board offers students the possibility to sit an additional oral test by way of replacement of a regular test, it will always be conducted and assessed by two examiners.
4. If a test consists of an assessment of freely-chosen evidence, the programme should allow the student to collect such evidence and receive feedback from the examiners, external experts and/or peers. The requirements that the evidence must meet are given in study manuals.

Article 20 Tests and assessments

1. The Examination Board will designate one or more examiners for each test. An examiner can also be an external expert. Each competency examination will be assessed by at least one assessor who is not involved in that student's study career counselling.
2. The assessment of minors is described in the minor regulations. The examiner of the minor determines whether a student has passed the tests. The Examination Board of the coordinating institute that offers the minor must determine whether the student has passed the minor and ensure that the student receives a certificate. The result achieved for the minor is forwarded to the programme administration of the study programme in which the student concerned is enrolled.

Article 21 Content of tests, duration of the test and test aids and test timetables

1. The content of the test, including the learning objectives, is described in syllabi and is made available to students at least at the start of the semester.
2. The examiner determines the period of time allowed to students to take the test as well as any aids that students may use during the test, subject to the guidelines and instructions provided by the Examination Board. This information must be stated on the examination paper.
3. The test timetable will be published through the portal no later than 1 week before the start of the test period in question.

Article 22 Registration for tests

1. Registration for tests is not required.
2. Students who have failed to act in accordance with the registration procedure cannot sit the test.

Article 23 Proof of identity during tests

Students must prove their identity at every test by showing a legally valid form of ID other than a student ID card.

Article 24 Test marking system

1. The assignments, questions, assessment norms and criteria are determined by the examiners with due regard for the guidelines and instructions provided by the Examination Board. The examiner conducts the test and determines the result on the basis of the determined assessment standards and assessment criteria.
2. If one and the same test is conducted and assessed by more than one examiner, the Examination Board will ensure that these examiners adhere to the same standards and criteria.

Article 25 Test results

1. The test results must be announced in writing to the student within ten days of the date of the test apart from the exceptions laid down in the Teaching and Examination Regulations. The study programme administration is responsible for announcing the test results. The privacy of students will be respected when test results are announced.
The tests of which the results are announced within 15 days are:
Interdisciplinarity – written process reflection
Body & Mind – written process reflection
Theory-Analysis – skills test
Music History – knowledge test: written exam
Entrepreneurship – report/written process reflection
Cultural Theory - report
Research – report/written process reflection
2. Students are entitled to inspect all assessed tests and the accompanying assessment criteria and to be given feedback on the results.
3. Inspection takes place during an evaluation with teacher/examiner(s), or at the request of the student, up until 3 weeks after receiving the test result at the latest.
4. Feedback is given during an evaluation with the teacher/examiner(s), or at the request of the student, up until 4 weeks after receiving the test result at the latest.
5. On request students will receive written notification of their results, from which the student can derive rights.

Article 26 Inability to sit tests

1. Students who have acted in accordance with the registration procedure described in Article 22 but who are unable to sit the test for reasons beyond their control, the legitimacy of which reasons is subject to assessment by the Examination Board, may apply to the Examination Board to sit the test within a period of time to be set by the Board. The student in question must have notified ... by email before the test that he/she has been prevented from sitting, including the reasons for not attending.
2. The application referred to in the previous paragraph must be submitted in writing to the chairman of the Examination Board and include the necessary evidence (see Article 38 (3)). The Examination Board will then take a decision and inform the student concerned. If the request is granted, the Examination Board will set a date, time and place for the test. Any rejection of the request will be substantiated and the student will be informed of his right to appeal. In assessing the request, the Examination Board's primary criteria are the obstruction of the study progress and the student's personal circumstances.
3. If such a request relates to a test of a minor offered across Fontys, the student must direct the request to the coordinating institute responsible for the minor, as described in regulations governing the minor

Article 27 Request for a review

1. Students who do not agree with an assessment can submit a request for a review of the assessment to the Examination Board within 4 working weeks after the date of the assessment (see Article 38 (3) of these Teaching and Examination Regulations and Article 44 of the Students' Charter). The Examination Board must take a decision within 4 work weeks at a maximum.

2. Students may also appeal directly to the Examination Appeals Board within 6 calendar weeks after the date of the assessment via www.fontys.nl/studentenloket. (see Article 45 and Article 46 of the Students' Charter).

Article 28 Resits

1. Tests are conducted at least twice an academic year.
Students can resit components marked with a pass no more than once, and at least once, in which case the highest mark will count. The regular test moments are the test itself and a re-examination. After the re-examination the student can submit a well-founded request to the Examination Board for an extra chance in the same academic year, which will be honoured in exceptional cases only. For the practical tests referred to below, resits only take place in the following academic year:
Interdisciplinarity year 1, 2, 3
Electives year 2, 4
Body & Mind year 1
Ensemble year 2 en 3
Themaweek year 1
Art meets Arts year 2
2. At least two opportunities to take tests that assess the material they have learned will be offered. Following these two test opportunities, the material to be studied for the test may be adapted to the material offered in the teaching block prior to the test. An up-to-date description of the material to be tested can be found in the syllabi on the portal.
3. If a test consists of an assessment of freely-chosen evidence, then the programme should offer the student the following option of improving or supplementing the evidence.
In consultation with the student, a determination is made regarding what needs to be done, when and how the student will be able to show that he has worked on acquiring the competencies and when he will have acquired these competencies.

Article 29 Period of validity of results - evidence

1. The period of validity of successfully completed component tests is 10 years.
The validity period for evidence is 10 years.
Results achieved for interim examinations can only lapse if the understanding/knowledge/skills to which these interim examinations relate can be shown to be obsolete. Understanding, knowledge and skills that were assessed more than 10 years ago can evidently be shown to be obsolete.
The period of validity of successfully completed interim examinations is:
10 years
The Examination Board may extend this term.
2. In the event of special circumstances as referred to in the Profiling Fund Scheme, the period of validity of interim examinations will as a minimum be extended by the duration of the support granted on the basis of that scheme.
3. If the study programme has been substantially altered, details on how this term will be restricted can be stated below, whether in the form of a written decision issued to a student or incorporation in the Teaching and Examination Regulations, if it applies to the entire cohort.

Article 30 Final paper - Knowledge bank

Students who write a final paper as part of the study programme must submit the paper digitally, as one document, to enable its filing in one or more digital knowledge bank(s). On submission of the final paper, students must also attach the signed 'Permission form for the filing and making available of a final paper in a digital knowledge bank'. With this form, students give their permission for the final paper to be entered in the knowledge bank and for it to be made available to potential users at the university of applied sciences and elsewhere.

On submission of the digital final paper, the student and/or client and/or organisation offering the internship may indicate their objection to the final paper being entered in the databank.

Article 31 Study progress

The study programme is responsible for recording the test results in the programme administration.

Article 32 Advice regarding the continuation of studies

1. During the first year of enrolment in the propaedeutic (first-year) phase of a study programme the student is given advice on his study progress before March 1. If the study progress is unsatisfactory, the student will receive a written warning and be told that if the study progress continues to be unsatisfactory, he will receive a binding negative advice regarding the continuation of his studies. A reasonable period within which the student must have improved his grade point average and the opportunities a study programme offers in that regard are stated in the warning. (Section 7.8b of the Act.) If possible the warning is sent before March 1. A student who has not received a warning before March 1 may yet receive one at a later point in the first year if he has fallen behind, and will be given a period within which to improve his grade point average.
The student will be given a warning in the following cases:
Not all tests in period 1 have been passed and mentoring meetings confirm the negative image of the study progress and motivation of the student. When there is no change in study progress, later on during the study year another warning will be given.
2. The study programme must give students advice regarding the continuation of studies in writing before the end of their first year of enrolment (12 months) in the foundation phase. Advice may be related not only to the continuation of the study programme, but also to the main subject the student may take. Advice regarding the continuation of studies can be negative (binding negative study advice), meaning that the student's enrolment in that particular study programme will be terminated and that he will not be allowed to re-enrol in the same study programme.
3. Advice regarding the continuation of studies is based on the student's results in the foundation year. The Examination Board advises the institute director on advice regarding the continuation of studies to be given. This advice must take into account the student's personal circumstances. Students must report any personal circumstances to their student coach or student counsellors the moment they occur.
If the student misses the deadline for reporting special circumstances, the Examination Board will examine whether it was excusable for the student to miss the deadline for reporting those circumstances. Engaging in top-class sports activities by students who have been granted a Top-Class Sport or Talent status are entitled is regarded as a special circumstance, on the basis of which the delivery of advice regarding the continuation of studies can be deferred.
The practice of running a business of his own by student entrepreneurs who have been awarded student entrepreneur status, as defined in the Fontys Student entrepreneur scheme, is also regarded as a special circumstance, on the basis of which the delivery of advice regarding the continuation of studies is deferred. However, a minimum number of credits which must be achieved to qualify for that deferral may be specified for student entrepreneurs (see also paragraph 4 of this article).
If credits can only be earned with a competency examination, students who have failed to sit the competency examination in the foundation year will be given binding negative advice regarding the continuation of studies, unless there are special circumstances, the legitimacy of which circumstances is subject to assessment by the director. In that case, it may be decided to defer the delivery of advice regarding the continuation of studies based on the individual student's portfolio.
4. The student will be given positive study advice regarding the continuation of studies in the following cases:
At least 48 EC have been obtained, including Instrument 1A & 1B and Ensemble 1A & 1B.
The student will be given a binding negative study advice regarding the continuation of studies in the following cases:
Less than 48 EC have been obtained, and/or one or more of the following tests were not passed:
Instrument 1A & 1B and Ensemble 1A & 1B.
The minimum number of credits which that must be achieved to qualify for that deferral for student entrepreneurs is 40 EC
5. Where there are special circumstances as defined in paragraph 3 of this article which may have had an influence on the credits the student obtained, the delivery of advice regarding the continuation of studies may be deferred until the end of the second year of enrolment or until the end of a shorter period. At the end of the second year or the shorter period, there will be a further review of whether the student has met the criteria as defined in paragraph 4.
6. Students who seek the termination of their enrolment during the first year of enrolment will be given a warning from the director stating his expectation that they may not be suitable for the study programme. The director must seek the advice from the Examination Board before doing so. The number of months of enrolment students have left before being given advice regarding the continuation of studies must also be determined in the event the student should decide to enrol in the same study programme at a later date (see also Article 35).
7. Not applicable

Article 33 Additional provisions concerning binding negative advice regarding the continuation of studies

1. An institute wishing to issue binding negative advice regarding the continuation of studies must make provisions that allow for, among other things, a student's personal circumstances and which are aimed at guaranteeing a student's good progress.
2. Binding negative advice regarding the continuation of studies is valid for a period of 5 years.
3. At the student's request, the institute director change the period or give permission for a student to re-enrol in spite of the binding negative advice as referred to in Section 7.8b(3) of the WHW
4. A binding negative advice regarding the continuation of studies refers to the full-time, part-time and dual forms of the study programme, unless otherwise stated.
5. Each binding negative advice regarding the continuation of studies must expressly state that the binding negative advice only refers to the study programme mentioned. Every binding negative study advice regarding the continuation of studies must include a referral, to either another study programme, the student counsellor or the study choice adviser.

Section 7 Graduation

Article 34 Examinations - certificates - diploma supplement

1. Students have passed the examination of the foundation year or the study programme if they have passed all units of study which form part of the foundation year or the study programme, as referred to in Article 15. (Section 7.10 of the Act.)

3. The certificate will only be given after it has been established that the student is enrolled and has paid his tuition fees for all the enrolment years. (Section 7.11 of the WHW.)
4. After successful completion of the examination, the Examination Board awards the certificate. The certificate is dated on the date of the student's final academic activity (test or assessment). The certificate of a study programme comes with a diploma supplement. This diploma supplement may include mention of a student's board activities (see Article 11). Students who have served as members of the Examination Appeals Board may also request that activity to be included on their diploma supplement.

The Examination Board will determine whether a student has passed within a maximum of eight calendar weeks after the student's final academic activity (test or assessment).
If the student wishes for the certificate to be dated later, the student must postpone the completion of his final academic activity (test or assessment).
5. The certificate is signed on behalf of the Examination Board by the (deputy) chairman, the (deputy) secretary, the candidate and, if applicable, an external expert.

(Section 7.11 of the WHW). On behalf of the institute, the Examination Board also confers on the student the degree if the student has taken the or the study programme examination.
For the study programme's examination the Bachelor of Music degree is awarded.
6. The award ceremony takes place at a time decided by the institute.
7. No classification is mentioned on the certificate.
8. The Executive Board reports to DUO the students that have passed the final examination of the study programme.

Article 35 Statement on departure

1. Every student who seeks to terminate his enrolment without having passed the study programme's final examination will be invited for an interview.
2. At the student's request, the student may be issued a statement listing any results achieved. Results of successful tests without credits can be converted into an equivalent of credits based on the study load. (Section 7.11 of the WHW.)
3. The statement must specify that the interim examination test results will in principle be valid for ten years. The statement can include a reservation in the event of a substantial overhaul of the study programme. See Article 29.

Article 36 Transfer

There are no specific agreements with universities for transfer to a master's program.

Section 8 Irregularities and fraud

1. If irregularities are discovered in connection with a test, as a result of which the Examination Board cannot guarantee the test's quality and any of its results, the Examination Board may forgo having the test checked, or declare a test result void. In such cases, the Examination Board must ensure that an opportunity to resit the test in the near future is offered to the affected students.
2. If a student is guilty of an irregularity committed with respect to (a component of) an examination or fraud, the Examination Board may exclude the student from sitting one or more tests of the study programme for a period to be determined by the Examination Board but which will not exceed one year. If the test has already been assessed, the result will be declared void. Any act contrary to the rules laid down around testing will be considered an irregularity or fraud within the meaning of this article.
3. In the case of serious fraud, the Examination Board can propose to the Executive Board that the enrolment of the student involved be prematurely terminated (*Section 7.12b of the WHW.*)
4. If the irregularity or fraud is only discovered after the examination, the Examination Board may withhold or claim back the certificate of the study programme or decide that the certificate will not be issued unless the student sits a new test or examination in the components to be determined by the Examination Board and in a fashion to be determined by the Examination Board.
5. Before taking a decision, the Examination Board will hear the student and any other interested parties. A report will be drawn up of this hearing, of which a copy is forwarded to the student. The Examination Board must notify the student of its decision without delay, which notification can be given orally if required but must in any event also be issued in writing. Furthermore, the student is informed of his right of appeal.
6. The Examination Board makes up a report of its decision and the facts it is based on.

Section 11 Final provisions and implementation

Article 42 Entry into force, amendments, publication and official title

1. The TER applies to all students enrolled in the study programme in question during the 2021–2022 academic year.
2. The general section of these regulations and any amendments thereto will be established by the Executive Board, after having obtained the consent of the students' section of the Central Participation Council. PC's will be given an opportunity to issue advice to the CPC. That general section of the TER constitutes the basis on which the study programme-specific TER for each study programme will be drawn up before being submitted to the Examination Board for their advice and the (joint) PC and IPC for their advice/consent.

The (joint) PC advises the institute director and sends its advice to the IPC for informational purposes. The IPC advises the institute director and sends its advice to the (joint) PC. The establishment of and amendments to the study programme-specific TER are effected following a proposal from the institute and require the consent of the students' section of the competent IPC and the (joint) PC.
