ROUTING OP LOCATIE

Met ons mobiliteitsbeleid en de daaruit voortvloeiende mobiliteitsmaatregelen dragen we bij aan de Sustainable Development Goals 3, 7, 9, 11, 12, 13 en 17.

Het dashboard mobiliteit van Fontys Hogescholen is opgebouwd met de data uit de volgende rapportages/bronnen:

- 1. Rapport: CO₂ Footprint van Fontys
Dit rapport wordt jaarlijks gemaakt. De gereisde kilometers en de CO₂ emissies als gevolg van de mobiliteit van medewerkers en studenten zijn hieruit overgenomen.
- 2. Rapport: Mobiliteit in Beeld van Fontys
Dit rapport wordt jaarlijks gemaakt. De gegevens m.b.t. modal split en de reismethoden per afstandsklasse van het woon-werk verkeer en woon-studie verkeer zijn hieruit overgenomen.
- 3. Rapport: Mobiliteitsenquête Fontys
Dit rapport wordt tweejaarlijks gemaakt. De gegevens van de diverse locaties van Fontys en de tevredenheidsmetingen zijn hieruit overgenomen.
- 4. Inventarisatie parkeervoorzieningen Fontys
Door de Dienst H&F is een inventarisatie gemaakt van de capaciteit van de auto- en fietsparkeerplaatsen van de diverse locaties en er is een waardering gegeven aan de routing op de locaties.

Vanwege het geringe aantal medewerkers / studenten zijn alleen de grote vestigingen in het dashboard opgenomen. De data van de kleinere vestigingen is wel beschikbaar. In onderstaande worden de aantallen studenten en medewerkers weergegeven:

	#medewerkers	#studenten
2020	5.193	46.550
2019	5.133	43.012
2018	4.786	42.516
