## First Aid in Education

Not quite sure whether teaching is for you? Then follow a (free) Masterclass in First Aid in Education. This will give you an initial insight into the art of teaching. After the Masterclass, you will know which follow-up steps you can take, or we can point you in the right direction. Do you want to complete the entire first aid course, for example? Or get started as a hybrid teacher or lateral entrant?

### Masterclass program
