

## **Our Fontys Song – Back in the Crowd**

I've been spending most of my time alone  
Staring at the empty streets from the comfort of my home  
Need somebody to keep me from drowning  
To help me reap what I've sown  
So help me make it through

I gotta get it together, keep my chin up  
Keep on smiling through the night until the sun comes up  
Gotta get it together, keep my head high  
Gonna tell the world I've made it now until I've reached the sky

Been staying up too long, way past midnight  
I lay in bed 'til 2 P.M. and I've lost my appetite  
Need somebody to help me carry on  
I'm running dry and it's terrifying too  
So make me live again

I gotta get it together, keep my chin up  
Keep on smiling through the night until the sun comes up  
Gotta get it together, keep my head high  
Gonna tell the world I've made it now until I've reached the sky

Pull me out of the water  
Pull me down from the cloud  
Together we're stronger  
So put me back in the crowd  
Pull me out of the water  
Pull me down from the cloud  
Together we're stronger

So put me back in the crowd

Someday soon the sunlight will hit my face

Oh I can't wait, to feel it's warm embrace

Pull me out of the water

Pull me down from the cloud

Together we're stronger

So put me back in the crowd

I gotta get it together, keep my chin up

Keep on smiling through the night until the sun comes up

Gotta get it together, keep my head high

Gonna tell the world I've made it now until I've reached the sky

Pull me out of the water

Pull me down from the cloud

Together we're stronger

So put me back in the crowd

Pull me out of the water

Pull me down from the cloud

Together we're stronger

So put me back in the crowd

Pull me out of the water

Pull me down from the cloud

Together we're stronger

So put me back in the crowd

Pull me out of the water

Pull me down from the cloud

Together we're stronger

So put me back in the crowd
