Fontys MIRT | Study year 2023-2024 | Educational materials

This is an overview of the educational materials covered during the programme. It is not compulsory to purchase the materials; the choice is yours, in consultation with the subject teachers, at the beginning of the academic year. There are digital books, there are paper books, combining is possible. Other books, such as Anatomical atlases, are also discussed during teaching. Some copies of the MBRT books are also available in the Fontys Media Library.

domain	titels	Author(s)	ISBN   paper book	price ±	ISBN   e-book	price ±
CT	Computed Tomography, 3rd edition	Seeram	9780323790635	€ 126,00	-
